For those who love the classic "Puyo Puyo" game, this game has it in their name. With the help of physics, you get to play the game of Puyo Puyo without the use of the buttons. Instead, the game uses the mouse, and this is what makes this game so unique. No buttons just a mouse! If you are new to the game of Puyo Puyo then this game might not appeal to you. However, it is perfect for those of you who have played the original Puyo Puyo game. There are no tutorials for the game. You just get right into the action. The game is very hard and if you are new to the game or to Puyo Puyo, this is the game for you. Get your camera ready to get an A+ on your next viewing! Everything is controlled with the mouse. You can jump, use it's breath to control a special ability and what a breath? It is the ability to control the slope of the slopes. Everything starts with just one jump but as you play more the jumps start to get more difficult. As you play you will find yourself mastering the controls to make perfect jumps. And once you master it, you will be able to create a custom game that will be unique to you. Once you master the controls you will be able to jump and even do split jumps. If you master it, you will be able to double jumps. The power of the breath will allow you to control the ski slope, which will in turn allow you to make impossible jumps. The ability to control the slope of the slopes will be used to overcome all the obstacles in the game. This game is not easy. It takes real skill to get the ability to double jump, to do split jumps and to master the controls. This game is difficult but once you are able to master it, you will have the best fun ever. If you are new to the game or to Puyo Puyo or even physics games, this game will challenge your skills. So start up the game, get some scores and get the best time you can! Note: This game is 100% FREE. The application comes with a help file in the installation package to assist you in the installation. If you need any help the email address is in the "Help File" you can email me directly at GameTek@AOL.COM. The aim of this series of games is to discover and improve your 82157476af
